DESCRIPTION OF BAVARIA 39 CRUISER

Bavaria 39 Cruiser is yet another modern yacht from Bavaria Yachts in Germany. The designers J&J once again succeeded in designing a modern "cruiser" for a challenging market.

The size and yet moderate draft enable the boat to cruise moderate shallow water areas while at the same time performing extraordinary well out at sea. The layout and subsequent space available ensures good comfort for both crew and passengers, a great boat for both a family and with friends.

The Bavaria 39 Cruiser actually also sails very well, and most people are surprised how well indeed. (You will find a link to a test made by Norwegian magazine Seilas above). In plain words - a spacious easy handling and relatively fast cruiser.

Below decks you will find a large pantry, two heads, one with a separate shower stand and comfortable double beds in three cabins makes this the ideal boat for quite a number of people for longer passages of considerable duration.

This Bavaria 39 Cruiser from 2007 has been taken very well care of by its owners and has only been used for local cruising. You will have a Seldén Furlin mast and Furlex genoa which ensures fast and easy handling.

A 38-hp Volvo Penta D2-40 ensure safe passage under engine. In combination with the powerful bowthruster this boat is handled simple and easy in almost any situation.

All in all an ideal combination of space, functionality and sailing pleasure and as always with a Bavaria, you really do get a lot of boat for a relative amount of money!
