DESCRIPTION OF ARCONA 460

Arcona 460 is a large, beautiful sailboat for fast and comfortable sailing on any ocean and in all weather conditions. Arcona 460 was the flagship of the Arcona range at the time it was introduced. A boat with high quality in every detail, furthermore lovely interior with all the amenities for long stays onboard. The cockpit works really well under way, with all controls in the "right" place, but also works really well while anchored or moored in a marina.

Down below, you find three cabins with the owner's state room up front. The owner's state room includes an ensuite bathroom with shower, while the two aft cabins share a bathroom, which by nature of its location on the boat also serves as the day head. In the saloon you find a longitudinal galley with ample worktop space to starboard. Here is also a large C-shaped sofa, facing a straight settee across a large table. This a great area for both meals and relaxing. Lots of storage behind the sofa cushions and under the settee. The length and width of the sofa also makes it a comfortable extra bed if needed.

This Arcona 460 is from 2007 and has a beautiful blue hull, re-sprayed with Awlgrip in 2018, a much more enduring and shinier surface than coloured gelcoat. This is a Swedish owned boat that has been sailed to the Caribbean and back by its current owners and is now for sale in Lagos, Portugal by Niklas Forsén who lives and works in Portugal.

The boat is well cared for and has many recent updates, as listed in the list of equipment/"utrustningslista".

A lovely boat with beautiful lines and excellent sailing characteristics. A true eye-catcher.

Updates July 2021

New pictures taken by Niklas Forsén in Lagos, Portugal July 17, 2021. The same day, Boat Agent also met the owner and made an inspection of the boat. The list of equipment is also updated to reflect the latest changes.

Visiting - transport sailing and more

The yacht is located in Lagos, Portugal. The owner is Swedish, and he has had the boat since it was new. I (Niklas Forsén) am also Swedish, and I live in Nazaré/Portugal - comes in handy if you would like to visit the boat. I have good knowledge about Arcona 460. I have sailed as a charter skipper with another Arcona 460 in the Stockholm Archipelago during three years in the late 00s.

I could also consider sailing the yacht from its current location to your home port. More info about transport sailing (in Swedish) here:
https://portugalagent.com/sv/transportsegling-till-sverige/
