DESCRIPTION OF REGINA AF VINDÖ 43

The Regina 43 is a boat for the couple, family or solo sailor with high expectations when it comes to quality, comfort and good sailing qualities. The boat is designed and adapted so you can remain on board for long periods and do so in comfort. At sea, the boat is safe to sail and in port, the boat is comfortable to live in - it is quite simply a boat for all occasions.

Below deck you are struck by the good view and fantastic space offered by the deck saloon. There is a generous sofa as well as a navigation table and a comfortable armchair to sink down into with a good book. Forward and down some steps on the starboard side there is a practical galley and on the port side opposite the galley there is a sofa. The galley has good surfaces to work on and all the equipment you might want such as a microwave, gas stove with oven and large fridge and freezer. Forward from the galley is the forward cabin and the toilet. The cabin is spacious and has good stowage possibilities but is beaten by the aft cabin when it comes to volume. The owner's cabin, which located down some steps aft of the saloon has great volume and a private toilet with washing machine.

This example is now being sold by the second owner. The boat has a high quality finish but is also fully equipped and properly fitted out for long distance sailing. Many things are new or have been recently replaced, including new sails, new cushions, new canopy, and new batteries. All imaginable comfort equipment such as electric power, air conditioning and a washing machine are on board to make the sailing as comfortable as possible. The boat is currently in Marina di Ragusa, Sicily. You are welcome to book a personal tour of the boat on location in Sicily.
