DESCRIPTION OF SWAN 38

The Swan 38 is a more compact version of the very popular Swan 42. Designed by Ohlin Stephens at S&S and built by Nautor of Finland, this model was also a great success. In total, 116 examples of the 38 were built between 1974 and 1979. This boat has serial number 76 and is now being sold by the third owner. For the majority of the time the boat has been sailed in freshwater.

The boat is a very good cruiser with a high standard of living comfort but it also sails well. With 7 berths you have space for the whole family. Below deck there is a galley, toilet, possibility of 3 berths in the saloon, a cabin in the bow and an aft cabin with two longitudinal berths. In 2016 the boat was fitted with a new 40hp Volvo Penta D2-40 engine.
