DESCRIPTION OF JEANNEAU SUN ODYSSEY 44 DS

The Sun Odyssey 44 DS from the French Jeanneau shipyard is a successful combination of luxurious comfort together with good sailing. What strikes you when you step on board are the enormous surface areas and the volume below deck. Many clever solutions are built into the boat, such as the saloon table, which is folded down by the push of a button to form an extra double berth. The shallow keel means you can get into all the natural harbours or why not take the boat on a canal tour in Europe.

This beautiful Sun Odyssey 44 DS is generously equipped with, among other things, bow and stern thrusters, hydronic heating system, two state of the art plotters and windlasses in both the bow and stern. The bow and stern thrusters are controlled by a joystick that is also connected to the engine, making handling in cramped harbours very smooth and easy. Read the complete equipment list in the PDF file at the top of the advertisement.
