## DESCRIPTION OF CELESTE

---

The Celeste 37 is the connoisseur's dream boat in terms of design, and is an example of genuine boat-building craftsmanship, as well as being a pleasure to drive. A boat for those with discerning tastes.

This boat was designed by the highly qualified Gabriel Heyman and built at Fribergs Båtbyggeri. When these two parties join forces, the only possible outcome is success of the very best kind. The boat has a design that stops many in their tracks when they catch a glimpse. Not only is it stylish, but it is also safe and functional.

You can easily get aboard using the bowsprit, and the broad plank-sheer allows you to easily reach the stern. The hull has been developed together with Chalmers University of Technology and delivers a fantastic driving experience. The fact that Fribergs Båtbyggeri have then added a superb finish to the interior and features

means that you will never want to leave once you are aboard. The boat has had one owner, has been run in freshwater and has always been kept indoors. Its next owner will effectively be taking on a boat in mint condition.

### FACTS

Length: 11.54 m

Beam: 3.60 m

Weight: approx. 8 tonnes

Height above waterline: 3.35 m

### ENGINE

2 x Volvo Penta D4 300 Hp with drive

2 diesel tanks

Electronic controls with servo
