DESCRIPTION OF BAVARIA 33 CRUISER

The Bavaria 33 Cruiser is a modern sailboat from the German Bavaria YachtBau. The Constructors J&J have once again been very successful in constructing a spacious and well-performing modern "cruiser" in the 33-foot class. A very popular size, having a relatively low draft, makes the boat perfect for the Swedish archipelago just like in the shallow Danish waters. It can almost get in anywhere you like.

The below deck plan solution makes the boat incredibly spacious and comfortable to move around in. You will find a large saloon area, two really good cabins as well as a toilet with plenty of space, also for the wet sailing gear. The Pantry is well organized as on any Bavaria.

This Bavaria 33 Cruiser from 2007 is now being sold by its second owner, who has completely overhauled the boat from A-Z including a total engine refit, pumps and hoses inclusive. Furling mast and furling genoa ensure simple sail handling, and the furling Genoa is in fact only two years old from Gransegel. A Volvo Penta D1-30 ensures reliability during engine operation. Together with an effective bow propeller, the boat is handled simply and easily in all conditions.

A well thought through combination of space, functionality and sailing pleasure. A very successful and popular combination for sailing in the Danish and Swedish waters and further, if you feel like it.

Check out the extensive equipment list above.
