## DESCRIPTION OF BENETEAU OCEANIS 423 CLIPPER

---

The Beneteau Oceanis 423 Clipper is a spacious and elegant sailboat. The Beneteau Oceanis series is a little less race-oriented compared to Beneteau's First series, but has very good sailing characteristics, which makes it a safe and stable cruiser under all conditions. First owner since new is selling.

The boat is equipped for the long voyage, and the owner has been on such with the boat for a few years. The boat has since been shipped home after Corona, and since then not been used much. Sellers have however lately replaced many items and equipment and the boat is now ready for the next adventure or for convenient holiday use, where you do not have to seek a port to moor in every day.

Sellers are now going ashore and therefore looking for new owners who wants to continue the adventure on board "Notorious".

The boat has been very well taken care of throughout its life and is very well equipped for comfortable and safe travels, see the equipment list in pdf above.

There is, among other things, a new sprayhood, canopy and sailpack, new sails from Orkan Sails, plus a little-used original set of sails, a drifter and a little-used genakker, new batteries, new toilets and a new ENO oven. The engine has been completely serviced with, among other things, a new generator, pressurized water pump, filterw and impeller. In addition, there are newer solar panels on a targa rack and a wind generator that together provide sufficient power for weeks offshore and at anchorages. Bow thruster for easy port maneouvring.

The boat has the owner's cabin in the bow with its own toilet and separate shower en-suite. In the stern there are two guest cabins and a toilet with shower. A large lounge with seating around the table - which can be extended for the large party, a large navigation area and a longitudinal kitchenette with plenty a workplace and storage for the gourmet chef on board.

A floating summer pleasure for coastal sailing in comfort or comfortable cruising beyond the horizon? Take your pick, this boat is made for both. The boat has an extensive equipment list, as it has been on a trip to the tropics a few years ago. So if the adventure arm is itching, the boat is ready for a trip to the south once more!

### Data:
