DESCRIPTION OF NAJAD 361

Najad 361 is a very conceived model with solid woodwork and genuine Orust quality through and through. The boat's layout invites pleasant and comfortable life on board, with, among other things, a well-sized galley, plenty of stowage space and spacious cabins. Najad 361 is a safe and solid sail-boat with a centre cockpit, protected by a windshield, all in accordance with the Orust boat building traditions.

This Najad 361 from 2000 has been sailed with pleasure and care, and has been looked after very carefully by its owner. In the winter, the boat has been cared for by GS Yachting, run by Göran Segerlind, former head of engineering at Najadvarvet, when the boat has enjoyed heated indoors storage.

The boat has been used, looked after, and updated with care and love. The kitchenette has recently been updated with a new worktop in Corian. The rest of the boat follows the same theme, and more details can be found in both pictures and in the equipment list. The interior is also surprisingly well preserved without the slightest scratch or marking. The rigging and sails include, double forward sails in a "Solent setup", which together with the furling mast make it easy to set unfurl the correct amount of canvas.

As usual with Najad, everything is extremely well built and nicely executed.

A lovely boat model in great condition!
