DESCRIPTION OF NORD STAR 28 PATROL

Nordstar 28 Patrol is built to withstand tough conditions, making it a reliable boat for both calm days in the archipelago and more challenging circumstances. Its solid construction and stability provide a sense of security at sea. The interior is well-planned with comfortable sleeping accommodations in two separate cabins and modern amenities to enhance the experience on the water. Many practical features, such as generous storage spaces, make life on the water in the Nordstar 28 Patrol a pleasure. Furthermore, the boat has wide side decks around the entire cabin. The aft deck and foredeck provide ample external space. Sliding doors on both sides make it easy to move in and out of the cabin, smoothly and conveniently, which is an important feature when mooring. The engine noise inside the cabin is very low.

This particular boat is in used condition and is being sold by a company, which means the boat can be purchased excluding VAT. Companies and individuals living outside the EU can purchase the boat excluding VAT at a price of: 850,000 SEK.
