DESCRIPTION OF BAVARIA 33 CRUISER

The Bavaria 33 Cruiser is a modern sailboat from the German Bavaria YachtBau.

The Constructors J&J have once again been very successful in constructing a spacious and well-performing modern "cruiser" in the 33-foot class. A very popular size, having a relatively low draft, makes the boat perfect for the Swedish archipelago just like in the shallow Danish waters.

The below deck plan solution makes the boat incredibly spacious and comfortable to move around in. You will find a large saloon area, two really good cabins as well as a toilet with plenty of space, a shower and also for the wet sailing gear. The Pantry is well organized as on any Bavaria.

This Bavaria 33 Cruiser from 2006 is now being sold by its second owner.

Furling mast and furling genoa ensure simple sail handlingl.

A Volvo Penta D1-30 ensures reliability during engine operation. Together with an effective bow thruster, the boat is handled simply and easily in all conditions.

A well thought through combination of space, functionality and sailing pleasure. A very successful and popular combination for sailing in the Danish and Swedish waters and further, if you feel like it.

Check out the extensive equipment list above.
