DESCRIPTION OF BENETEAU SWIFT TRAWLER 42

Below deck there are 2 spacious cabins as well as double bathrooms with toilets and showers. In the large saloon there is the steering position with all possible equipment and excellent visibility. Thanks to the side doors, you can easily exit on both sides for quick harbour manoeuvres. The well-equipped pantry is located to port and aft the spacious seating area where even a larger crew can comfortably accommodate round the table. There you can also make a comfortable bed for 2 people if needed.

Under the salon there is a spacious and extra insulated engine room with all technology easily accessible. There is a lot of stowage space in the boat, but necessary for longer passages.

The well-protected and large aft deck is accessed via a large sliding door.

The flybridge is also very spacious and a fantastic place to enjoy for the entire crew.

There is also a dinghy that can be easily launched thanks to the folding mast.

The boat is very well maintained, stored in a warm hall, extremely well equipped with countless updates over the years.

This particular boat was used during the Olympic Games in London 2012 as a judge's boat and was bought in 2019 by the current owners.

Twin Volvo engines and both bow and stern thrusters make the Swift Trawler very easy to maneuver in harbours.

In addition, the fuel economy is surprisingly low at speeds ranging from 8.5 to 20 knots.

The Beneteau Swift Trawler 42 is designed for those planning the most comfortable and, when needed, even fast cruising on longer journeys, or calmful canal trips through beautiful landscapes.

The boat is fully equipped and in excellent condition, ready to go!

Included in the price is that the boat will be delivered serviced and launched in the spring of 2024!
