

# Hanse 355, 2011

Location: Haninge

Price: 995 000 SEK (91 062 € / 679 831 DKK / 387 445 PLN)

Hanse 355 is looking for a new owner. Here is a 3-cabin boat that gives a solid impression. Updated electronics, sails, lines, blocks, and a newly installed environmentally friendly toilet of the brand Airhead. The boat sails well as this specimen has the deeper keel at 1.92 meters. Structurally, the hull and deck are built with vinylester, which means lower weight.

## DESCRIPTION OF HANSE 355

---

A well-sailing and practically designed sailing boat. One impression is that this boat is large for its size. It is equipped with a stable 2-spreader rig from Selden. Furthermore, it has a self-tacking jib and a gennaker for easy handling. All sails are from 2019. The mainsail and jib are made of carbon fiber with a main drop and stack pack. The gennaker is an A3 with a sock for easy handling.

The cockpit has an open transom for smooth access and disembarkation. The layout is typical Hanse, spacious, everything is in the right place, and you sit comfortably even when the boat tilts. Around the folding table, you have plenty of space for everyone on board. A sturdy sprayhood provides excellent protection, and there's a large cockpit cover for when the evenings get a bit cooler.

Inside the boat, there's a well-appointed L-shaped galley to starboard, with ample storage and a large refrigerator. To port, there's a toilet with a shower. The toilet is an Airhead, an environmentally friendly toilet system that eliminates odorous hoses. Directly forward of the toilet is a navigation station with a table and electrical panel. The salon is classically designed with sofas on both sides and a table in the middle. There's plenty of storage in the cabinets above. The forward cabin has ample space for two adults. Aft, there are two sturdy double berths.
