DESCRIPTION OF SALONA 35

With this 35-footer, Salona has managed to combine modern design and stylish lines with a classic interior, no wonder the model is so coveted!

The interior is classic but functional, both out at sea and in port. To port there is a practical L-pentry, with plenty of storage, stove, oven and fridge box. To starboard is a navigation table that also works great as an "onboard office". The saloon has plenty of natural light and comfortable sofas, which also provide berths for two and a flap table around which the whole crew thrives. In the aft there is a wide cabin to port and to starboard a spacious toilet with shower.

The Salona 35 has dual carbon steering wheels that contribute to the spacious cockpit. There is also plenty of stowage space, long benches and a large, stable table with flaps. The aft bench can be removed to make the stern open and sportier and next to it there is a gate for easy passage to the bath platform. The deck layout is designed for efficient and comfortable sailing with e.g. self-tacking track the foresail.

The boat is upgraded with a more powerful engine than standard and has also a retractable bow thruster for easier and safer harbour manoeuvres.

Salona 35 has a strong stainless-steel frame that takes up the load from the keel and rig to relieve the hull.

The boat is in excellent condition, not grounded and sold by the first owner.

It is in Mariehamn / Finland where it also will be stored in a hall for the winter.
