## DESCRIPTION OF NAUTICAT 42

---

It is very rare that a sailboat of this caliber comes up for sale.

This Nauticat 42 has been kept safe and warm in its own hall for most of its life. The boat has been in the water for approximately 3½ months a year. And for 2 years not at all. It is thus almost impossible to see that this Nauticat 42 has sailed. It was built in 1995 and was initially an exhibition boat for Nauticat.

Its current and sole owner has continuously replaced many essential parts, and the boat is thus in very good condition. Among other things, completely new sails, new diesel generator, sprayhood and cockpit tent and other things have been replaced within the last year.

The boat is equipped with a large salon, from which there is a descent to 3 cabins with 6 berths. There is a galley with a stove and a large refrigerator. 2 bathrooms with toilet in one. The second bathroom is prepared for a toilet with the necessary hose connections. As something quite special, there is a sauna in the boat – it is Finnish after all!

There are both bow and stern thrusters. Electric windlass fore and aft and electric furling mainsail.

Nauticat is famous for a very high construction and craftsmanship quality, which is also seen in this boat in every detail.
