DESCRIPTION OF HANSE 430E

The famous designer couple Judel & Vrolijk became the house designers for Hanse in the early 2000 and designed a number of new performance cruisers from 32 to 47 feet. This is the 43 feet version, which by many redeemed the better combination of the concept having extremely good sailig performance while at the same time having more than amble space and acommodation to take the family and or friends for a very long cruise.

This Hanse 430e is in a good condition and comes very well equipped and updated. She features a sizable and safe cockpit with double wheel steering and has been rigged for short handed sailing with electric halyard winch and self tacking jib, retractable bow thruster and electric windlass. The performance matches the modern design features, and she is a real joy at the helm. This specific 430e features the most popular layout with a huge centerline double berth forward with own bathroom (a real owners cabin) and twin double aft cabins with shared facilities. Ideal for (performance) cruising with family and friends.

Previous and present owners have made substantial updates. Check out the detailed equipment list in Pdf above.
