## DESCRIPTION OF NIMBUS T8

---

First owner sells, excellent condition, Orust Edition package, full documentation payed VAT available.

The text below is copied from Nimbus Boats official site, presents the T8 very nicely.

"The T8 is intended for day-to-day social activities, transportation, water sports and leisure activities. It is based on a newly developed air-lubricated stepped hull with excellent seafaring qualities and a low planning threshold. The T8 has a cruising speed between 20-35 knots, with a maximum speed in excess of 40 knots".

"The T8 provides stable, safe and quiet performance, which makes it easy to operate the boat at high speed, even in poor weather conditions. The construction quality and excellent seaworthiness and handling, combined with superior speed resources, invite a more active style of driving that still feels safe and secure.

The T8 has a wide walk-around deck design which allows for maximum freedom of movement and makes it easier for passengers to board.

On the foredeck is a sunbed which provides lounging space for 4 people. The foredeck also conceals a large loading hatch with access to the cabin for easy loading.

Reversible helm seats and a mounted retractable table allow for a dining area for five people in three easy movements. The aft sofa accommodates 6 people, 3 facing aft and 3 facing the forward. The backrest on the aft sofa can be set to three different positions depending on intended use – seating while underway (upright position), aft lounge sofa (angled) or full sunbed (folded down).

Under the aft sofa there is a retractable refrigerator and an easily accessible storage compartment for storing equipment. On the aft deck there is also a shower outlet and two side storage compartments.

Below deck there is a two-person berth with integrated ventilation, LED lighting, ample stowage and a separate head with sink. A galley facility with a wet bar with wash basin on the port side of the cabin.

This specific T8 is equipped with a robust T-top with a polycarbonate roof that provides sun protection without detracting from the open-air feel you want from a day boat.

The combination of the T-top and large canopy, which covers the entire aft deck, makes it possible for 5 people to sit comfortably in a bright and spacious yet sheltered setting. The T8 is approved for a maximum of 8 people.

The polycarbonate roof on the T-top, in combination with the canopy, makes it possible to stay sheltered during the journey, even when the weather takes a turn for the worse. This extends the boating season and expands the areas of use, not least in Scandinavia.
