DESCRIPTION OF FINNGULF 391

The Finnish shipyard Finngulf Yachts has produced about 900 boats between the years 1981 and 2011. The boats are handmade and compromise neither quality nor sailing performance.

The interior is designed to be both beautiful and functional at sea.

To port of the companionway is an L-shaped pantry with plenty of storage, stove, oven, and fridge box.

The aft and forward cabin have double berths and wardrobes.

The salon has sofas, which also provide some extra berth places, and a large drop-leaf table.

On the starboard side, there is the navigation station and a spacious toilet with shower.

The deck layout is designed for efficient sailing and the cockpit has plenty of storage space.

If you're looking for a approved fast quality boat with beautiful, classic style, then this beauty might be the boat you're seeking!

This Finngulf 391 is in good condition with many updates made over the years.

The boat has been surveyed in June 2024!

The boat is available for viewing in Hanko, which is 1.5 hours west of Helsinki / Finland.
