DESCRIPTION OF SKAW 35

Skaw 35 from 1984 in a very good condition ready for its new adventures

Skaw 35 was designed by the German designer Manfred Ernst in the 70th. The boat was constructed as a comfortable and sailworthy motorsailer capable of long distance cruising and to go anywhere. The boat has later been classified in the EU as a Category A cruiser. The quality boats from Vilm Yard are often compared to the boats coming out of Orust Island Sweden - HR, Najad, Malö.

This boat is a real beauty as has been cared for by its previous and now third. The hull has been cleaned and secured with epoxy pimer. New cushions throughout the boat, a new ENO stove and oven, new fridge and a new and effektive autopilot has been added recently. The boat has always been covered during the Winter season hence the teak deck is in a remarkably good condition.

Below deck you will find a very spacious accommodation with ample space and storageroom for a crew of four and even 6, if you must. Forward you find a spacious V-berth, a saloon with room for the entire crew around the saloon table, a well equipped pantry to starboard and a roomy toilet to port just ind front of the cockpit.

The Centercockpit is deep and safe with a pilot chair for the navigator enabling a 360 deg view of deck and surroundings.

Aft of the center cockpit you enter the also very spacious and cosy aft cabin with twin berths.

The aft deck is the perfect space for relaxation whether at sea or in port or at a comfortable ancorage. Here you enter the hge bathing platform with a fixed bathing ladder with teak steps.

Have a good look at the beautiful pictures of a boat that has been really cared for by its owner who unfortunately now have to go ashore.
