DESCRIPTION OF NAJAD 340

Najad 340 is built at the Najad shipyard on Orust, the island which is known as the home of Swedish boatbuilding quality through generations. The Najad 340 is no exception. The boat is built in the best materials and to a high standard of craftsmanship throughout. Every detail has been thought of both in terms of deck layout and cockpit layout. Both the hull and teak deck are in good condition, and the deep and spacious cockpit provides good protection, not least due to the permanent wind screen and the large sprayhood.
Below deck, the boat's volume is fully utilized with a really nice layout and space, not least considering the size of the boat. To the port side of the saloon there is a large panty with navigation space in its extension. To starboard there is a large U-shaped sofa with a large salon table. At the stern of starboard there is a toilet, and to the port there is a spacious enclosed aft cabin. At the front of the boat there are two good single berths that can be converted into a double berth.
The boat is generally characterized by the fact that it has been well taken care of throughout the years. It has had 3 owners, and the boat has always been stored indoors in a hall during winter. The boat has just been prepared, launched, and rigged, and ready for quick handover to new owners before the summer holidays.
