DESCRIPTION OF HANSE 325

The Hanse 325 is a very modern, comfortable and a fast sailing boat. Equipped with a self-tacking jib as standard, a great top down system Profurl with the Code 0 makes her very easy to handle as per design. The boat is easily handled by a small crew/single handed.

The interior is very luminous and the space is very well optimised and roomy. This version comes with two cabins, a spacious toilet with shower and a well-thought-out kitchenette.

Very well taken care of by the 2 owners, the current owner has made regular updates the past 4 years (see detailed equipment list) and kept thoroughly all documentations.

In its current ownership, she has been sailed down from Stockholm to Malmö. Last summer while looking for an anchoring spot outside Malmö, the boat went aground as an unlucky surprise but the boat was immediately put on land, the keel thoroughly inspected, taken off, and having the keel structure re-laminated in the "old fashion" way by expert hands in Limhamn, making the yacht stronger than before.

After being under warm shelter last winter, the boat has just been back in water 2 weeks ago, after remasting and full polishing, making her fully ready for summer ...and the next owner.
