DESCRIPTION OF BENETEAU ANTARES 9 OB

With its Air Step® hull, the Antares 9 gently cuts through the waves, offering a comfortable ride and safe navigation. The U-shaped seats that convert into sunbeds and the drivers seat can be turned around. With the attractive spacious cockpit (1.53 x 2.40 m) makes a good combination for relaxing with friends and family. With a three-part sliding door aft and a side door that opens from the drivers seat, makes maneuvering easier and safer. The openable roof helps ensure that the wheelhouse has plenty of space and light. The boat has two separate cabins, berths for 4 people, a kitchenette equipped with sink, oven and stove and a 60 liter fridge with freezer. The toilet has a shower and another shower is on the bathing platform. Antares 9 take 400 liters of fuel, 160 liters of water and 25 liters of hot water.

The engines have only been driven for 86 hours and have just been serviced. With 2 x 150 hp power, the Antares 9 has the latest technological developments in terms of outboard engines. There is also a remote-controlled bow thruster.

The boat has always been stored indoors in a private warm hall. Option to buy boat trailer separately. Available for viewing in Terjärv, 1 hour 40 minutes from Vaasa, Finland.
